I am passionate about learning, programming, and advancing technology which is why I believe I would make a great addition to your team at [insert company name here].

PROJECTS

- Leap Frog game, with HTML/CSS and JavaScript, using object-oriented programming to create a game within a canvas element.
- Dice game(pig-game), used the Sweet Alert external library.
- Portfolio website, used gulp to transpile and optimize code for production.
- Budget calculator, created using classes for multiple accounts to be added in the future.
- Matching game, used JavaScript to control DOM elements.
- Restaurant Review App, an offline first application using the Yummly API to import restaurant data.
- ToDo App, using the React framework to add, remove and complete tasks on the list.

EDUCATION

SEPT/18 – SEPT/19

SOFTWARE DEVELOPMENT, MITT

Learned about basic to intermediate programming and web development using various languages and frame works such as JavaScript, HTML/CSS, React. Used test driven development using Jasmine, and used source control (Git) for most Projects.

SEPT/2009 – JUNE/2013

HIGH SCHOOL, WC. MILLER COLLEGIATE

Received level one of building construction credentials.

EMPLOYMENT

MAY/17 OCT/17

GRAIN BIN CONSTRUCTION, JFK CONSTRUCTION

Worked as a team throughout the process of assembling grain bins.

JULY/16 OCT/16

CONSTRUCTION WORKER, HARV GINTER CONTRUCTION

Worked as a team as well as on my own in finding solutions to meet customer needs.

DEC/14 JULY/16

ELECTRICIAN, GRANDEUR HOMES

Discovered my love for problem solving by figuring out the best way to wire up houses, and troubleshooting when errors occurred.

SEPT/14 DEC/14

EXTERIOR FINISHER, GRANDEUR HOMES

Displayed attention to detail in siding and adding trim to houses in the best looking way possible.

JULY/10 AUG/14

BUTCHER, PIONEER MEAT

Responsible for cleaning and maintaining equipment to be used in the process of meat production and general building upkeep.

Completed tasks in accordance of Health and Safety codes.

Came in early to set everything up for when the rest of the crew would come in to start the day.

SKILLS

JavaScript (ES5 & ES6), HTML/CSS, React, Jasmine (test driven development), Python, Git, Linux, Gulp, Offline First Applications, Responsive Web Design.

All of my projects described can be found on my Github profile at github.com/eveatsapples

Thank you for taking the time to read through my resume.
I look forward to meeting you to discuss my future at your company!
